

Environmental Review

Lisa Fought has over 14 years of experience as the primary author for State and National Environmental Policy Act (SEPA/NEPA) documents including environmental assessments, reviews, reports and checklists and managed the development of supporting documentation including Section 4(f) analyses, Section 106 compliance for major public works projects. Her responsibilities on the GBC project will include facilitating the process for impact analyses and identifying mitigation measures, reviewing technical discipline reports and preparing the modified draft and final EIS documents.
