

# Corridor Study

## M-32 & Old-27/I-75 Business Loop Corridor Study

### Otsego County

#### **Prepared for:**

Gaylord, Vanderbilt, Otsego County, and the Townships of Hayes, Elmira, Livingston, Bagley, Corwith, Charlton, Chester and Otsego Lake

#### **In Cooperation with:**

Otsego County Coordinated Land Use Committee  
Michigan Department of Transportation

#### **With the Assistance of:**

Northeast Michigan Council of Governments  
Wade-Trim, Inc.

**Northeast Michigan Council of Governments**  
121 East Mitchell Street  
P. O. 457  
Gaylord, Michigan 49734  
(517) 732-3551

# M-32, Old-27 and I-75 Business Loop Corridor Study

## Corridor Study Committee Members

Carl Lord, Otsego County Board of Commissioners  
John Ernst, Otsego County Planning Commission  
Joe Duff, City of Gaylord  
Becky Curtis, City of Gaylord  
Elizabeth Haus, Village of Vanderbilt  
Joanne Mench, Livingston Township, Otsego County MTA  
Mike Roper, Otsego Road Commission  
Jack Middleton, Otsego County MSU Extension  
Bonnie Bussard, Michigan Department of Transportation  
Phillip Becker, Michigan Department of Transportation  
Tom Kellogg, Northeast Michigan Council of Governments  
Richard Deuell, Northeast Michigan Council of Governments  
Dawn Johnston, Gaylord ZBA, Festival Land Development  
Rich Williams, Festival Land Development

Date: September 29, 2000

## Table of Contents

|           |   |      |
|-----------|---|------|
| Chapter 1 | Introduction .....                            | 1-1  |
|           | Background .....                              | 1-1  |
|           | Study Area .....                              | 1-2  |
|           | Purpose of the Planning Process.....          | 1-3  |
| Chapter 2 | Existing Conditions.....                      | 2-1  |
|           | Data Sets.....                                | 2-1  |
|           | Existing Land Use.....                        | 2-1  |
|           | Utility Service Areas.....                    | 2-5  |
|           | Off Site Advertising.....                     | 2-7  |
|           | DDA Districts.....                            | 2-7  |
|           | Visual Resources and Community Character..... | 2-9  |
| Chapter 3 | Environmental Analysis.....                   | 3-1  |
|           | Natural Resources.....                        | 3-1  |
|           | Agriculture .....                             | 3-3  |
|           | Soil Constraints.....                         | 3-4  |
|           | Slopes 18 % and Greater.....                  | 3-4  |
|           | Hydric Soils.....                             | 3-4  |
|           | Building Site Development.....                | 3-7  |
|           | Septic Systems.....                           | 3-7  |
|           | Urban Forests.....                            | 3-7  |
| Chapter 4 | Status of Planning and Zoning.....            | 4-1  |
|           | Introduction.....                             | 4-1  |
|           | Community Planning.....                       | 4-1  |
|           | Future Land Use Plans.....                    | 4-1  |
|           | Zoning.....                                   | 4-5  |
|           | Zoning Maps and Zoning Districts.....         | 4-8  |
|           | Model Ordinances.....                         | 4-14 |
| Chapter 5 | Traffic Conditions .....                      | 5-1  |
|           | Introduction.....                             | 5-1  |
|           | Existing Conditions .....                     | 5-1  |
|           | Speed Limits .....                            | 5-1  |
|           | Number of Lanes .....                         | 5-2  |
|           | Traffic Control.....                          | 5-2  |
|           | Major Traffic Generators.....                 | 5-3  |
|           | Major Traffic Input Locations.....            | 5-4  |
|           | Access Points .....                           | 5-4  |
|           | Traffic Volumes .....                         | 5-5  |
|           | Crashes .....                                 | 5-5  |
|           | Operating Conditions .....                    | 5-8  |
|           | Projected Conditions.....                     | 5-10 |
|           | Traffic Volumes .....                         | 5-10 |
|           | Operating Conditions .....                    | 5-10 |

|            |  |      |
|------------|--|------|
| Chapter 6  | Access Management.....   | 6-1  |
|            | Introduction.....  | 6-1  |
|            | Driveway Spacing.....  | 6-2  |
|            | Roadway Speed.....   | 6-2  |
|            | Sight Distance.....  | 6-4  |
|            | Location of Nearby Intersections.....  | 6-4  |
|            | Type and Size of Development.....  | 6-4  |
|            | Maximum Number of Access Drives Per Property Frontage.....                             | 6-5  |
|            | Driveway Design.....   | 6-5  |
|            | Commercial Driveways .....   | 6-5  |
|            | Private Street Entrances .....   | 6-6  |
|            | Residential Driveways.....   | 6-6  |
|            | Joint Driveways.....   | 6-9  |
|            | Driveway Consolidation .....   | 6-9  |
|            | Service Roads .....  | 6-9  |
|            | Auxiliary Lanes .....  | 6-11 |
|            | Right Turn Deceleration Taper.....   | 6-11 |
|            | Right Turn Deceleration Lane.....  | 6-11 |
|            | Two-Way Left Turn Lane.....  | 6-13 |
|            | Additional Exit Lane for an Access Drive.....  | 6-13 |
|            | Medians .....  | 6-14 |
|            | Trees and Landscaping.....   | 6-16 |
|            | Traffic Signals .....  | 6-17 |
|            | Thresholds for Requiring Traffic Impact Studies.....                                   | 6-17 |
|            | Types of Traffic Impacts .....   | 6-18 |
|            | Rezoning Traffic Study .....   | 6-18 |
|            | Traffic Impact Assessment .....  | 6-18 |
|            | Regional Traffic Analysis.....   | 6-18 |
|            | Trip Generation Thresholds.....  | 6-18 |
|            | Thresholds for Rezoning Requests.....  | 6-18 |
|            | Thresholds for Site Plans, Plats, Mobile Homes Parks,<br>and Condominium Projects..... | 6-19 |
|            | Summary.....   | 6-22 |
| Chapter 7  | Corridor Goals and Objectives.....   | 7-1  |
|            | Inter-governmental Cooperation.....  | 7-1  |
|            | Access Management.....   | 7-2  |
|            | Capacity .....   | 7-2  |
|            | Safety.....  | 7-3  |
|            | Land Use Planning.....   | 7-3  |
|            | Natural Features.....  | 7-4  |
|            | Scenic Values.....   | 7-4  |
| Chapter 8  | Recommendations and Improvement Strategies.....  | 8-1  |
|            | Communication .....  | 8-1  |
|            | Medians, Turning Lanes & Passing Flares.....   | 8-2  |
|            | Access Driveways, Frontage Roads, Rear Access Drives & Parking.....                    | 8-3  |
|            | Pedestrian and Bicycle Facilities.....   | 8-3  |
|            | Economic Viability of Commercial Areas.....  | 8-5  |
|            | Aesthetics, Recreation and Natural Resources.....                                      | 8-6  |
|            | Community Planning.....  | 8-6  |
| Appendix A | Model Zoning Ordinance Language.....   | A-1  |
| Appendix B | Strengths, Weaknesses, Opportunities and Threats.....                                  | B-1  |

## List of Figures
