

## **Arcade Livery**

Chas Carpenter, the proprietor of the Arcade Livery, is well known in Gaylord and surrounding country, having been a resident of Otsego County for the last 24 years.

Four years ago he acquired the livery business of Al Demerest and added new rigs and horses, and today has one of the best equipped stables in the county. His establishment is fast becoming popular with the public, especially with the traveling men on account of the good horses and the reliability of the drivers.

During the sweeping conflagration of May 13, 1904, Mr. Carpenter lost his barns and dwelling house, and with what insurance money he recovered immediately set about erecting other buildings and was soon doing business again on the same stand in well appointed barns.
